Subject: What is happening with EPA's watershed assessment?
Sent by: Judy Smith

EPA is making good progress on the Bristol Bay Watershed Assessment and we look forward to sharing this information with you next spring. There will be two main parts of the report. The first part summarizes information on several key resources, including the salmon fishery, non-salmon fishery, wildlife, roads, economics and indigenous culture.

The opportunity to nominate candidates for the Scientific Peer Review panel is coming up very soon. The notice will be placed in the Federal Register in late December or early January. Please stay tuned!

During the past month, EPA has met with several groups, organizations and businesses exchange scientific information and listen to different perspectives about large scale development in Bristol Bay. The list includes Bristol Bay Seafood Development Corporation, Bristol Bay Native Corporation Land Committee, Nuna Resources, Trout Unlimited, Wild Salmon Center, Pebble Partnership, Alaska Peninsula Corporation Board, Iliamna Development Corporation and Nunamta Aulukestai.

Here is a link to a PowerPoint presentation given to the Bristol Bay Seafood Development Corporation by EPA Manager Rick Parkin.

If your organization has a website, please feel free to add a link to our EPA Bristol Bay website: www.epa.gov/region10/bristolbay

Thank you for your interest in EPA's work in Bristol Bay.
